

# Fight Off the Discomfort, Cure Hemorrhoids Now!

**H**emorrhoids are also known as piles. They are veins along the rectum and also the anal sphincter that have become inflamed and swollen. In the United States alone, statistics show that there are over 3 quarters of the total population who suffer from hemorrhoids at some point in their lives. The age bracket most susceptible to developing hemorrhoids is between 40 in order to 60 many years. Here are some of the common natural remedies in which are used to cure hemorrhoids:

Bioflavonoids are a kind of natural substance that is perceived to work by backing and empowering the blood vessel walls and by reducing the inflammation. These substances were found to lessen discomfort, anal discomfort and anal discharge whenever there is an acute hemorrhoid attack. The side effects of this herbal compound were discovered to be unusual and slight, rendering it a promising substance to cure hemorrhoids especially during pregnancy. Beneficial flavonoids tend to be those that are found in herperidin, diosmin, oxerutins and citrus fruits.

Horse chestnut, scientifically known as *Aesculus hippocastanum* is frequently suggested when there is poor blood circulation along the veins or chronic venous insufficiency. In traditional medicine, horse chestnut is utilized for the relief of signs and symptoms such as inflammation and swelling as well as in strengthening the blood vessel walls. Aescin is believed to be the active ingredient found in horse chestnut. It can be taken in capsule form or consumed as tea. It can also be used outside the body as a compress.

- Fiber is known to have a consistent beneficial output when it comes to the relief of hemorrhoid symptoms and bleeding.
- Fiber is able to soften the stool as well as increase its bulk which as a result helps in to minimize straining.
- There are a lot of ways to obtain more fiber and ultimately cure hemorrhoids.
- Start by taking in foods which are high in fiber such as vegetables and whole grains.
- A fiber supplement in powdered form called Psyllium is another option.
- This option is inexpensive and readily available.
- The normal amount of this supplement is one teaspoon of the husks dissolved in water followed by another glass of water.
